VCDC was established in 1994 to reduce poverty and promote sustainable and equal development for women and men by mobilizing local resources and empowering the community. There are 15 women and 15 men general members, and four women and three men serve on the executive board.

**Achievements:** VCDC has opened the organization to new members and built their organizational capacity. They have modeled integration of gender concepts into the implementation of Fund Board projects.

**CNGO-funded project:** VCDC is implementing a gender awareness raising campaign and income generating activities in their target community.

**Services:** Organizational development, women empowerment, non-formal education, training of trainers, savings and credit group mobilization, gender and development, health and sanitation program delivery
